

## WoProc2024 policy on sharing photos

The organizers will be taking photos during the conference. If you object to being photographed and/or do not wish your photos being shared on social media, please opt-out by emailing the organizers ([moproc2024@gmail.com](mailto:moproc2024@gmail.com)). Providing a photo in the attachment would help us avoid taking photos of you during the conference. However, if you should not feel comfortable sharing the image with the organizers, please inform us during the registration, so we can meet in person.

If you do not send such email, we will assume that you have given your consent to being photographed and agree to those photos being shared for the purposes of spreading the word about the conference and similar academic purposes.
